***ABSTRACT\_** The purpose of this study was to identify the compatibility between gradulators of colleges of education and the needs of educational labor market by identifying the needs of teachers in Omani school based on gender, number. In addition, it aimed to identify the reasons behind the mismatching between the gradulators of colleges of education and the needs of educational labor market and what suggestions can be provided. Two tools were used to get the results; contain Analysis and interviews. The study found that there is a big gap between gradulators and the needs of teachers in Omani schools. The researchers suggested that there is a need for having a clear plan between Ministry of education and colleges of education and reopening the collages of Education in Oman.*

***KEY WORDS:** colleges of education, educational labor market, compatibility, Omani schools.*
