KING SAUD UNIVERSITY

ABSTRACT_ This study aimed to identify the degree of availability of the elements of the administrative empowerment of women leaders in the College of Education at King Saud University, and to achieve the objectives of the study the researcher has used the descriptive survey. The Questionnaire was also used as a tool to study the collection of data from fourteen women leaders at King Saud University. the study showed: the elements of the administrative empowerment among women leaders in the College of Education are available at King Saud University in a medium range , where work and training team comes in the first place among the elements of the administrative empowerment, followed by effective communication, and in the fourth place comes the delegation of authority, At last motivation considered as the least element in the administrative empowerment among women leaders in the College of Education at King Saud University. Furthermore the results showed that there were no statistically significant differences at the level of (0.05) or less between the averages of the study sample responses about the degree of availability of the elements of the administrative empowerment of women leaders in the College Education depending on the differences of years of experience and educational qualifications. As a result of the surveys and the studies the researcher has made several suggestions.

KEY WORD: administrative empowerment, women leaders.
